

Bowen Consulting Group

If you have seen us at conventions, we hope you remember not just the serious conversations, but also the bouncing yellow balls, the Golden Girl entertaining attendees, or rubber monkeys flying across the room. We initiate play along with education. As a vendor we offer fun and entertainment at our booth along with excellent business advice and cool SWAG. We pride ourselves on being “The Most Fun Booth” at any event. As presenters, we bring over 50 years of professional experience to provide excellent education as well.

We provide Team Challenge and Icebreaker Events for fun break-out sessions. These events incorporate thought and skills that bring a group to laughter amidst problem solving. Anything is here, just tell us your theme and how much time we have and we will take care of the rest.

James Bowen, JD, known as “the second funniest tax guy in America” will educate you on what they do not teach you in school – how to make your practice run efficiently and profitably. Proper use of your business form (Corp, LLC, Sole Prop) with correct characterization of your income and expenses will significantly lower your tax liability. His insights on tax reduction and clinic operations averages over \$20,000/year in savings to attendees.

His seminars have helped thousands of Docs around the country significantly improve their clinic and their finances in just a few hours. James brings his 25-year, 300+ clinic background of legal, business and tax consulting to teach you what work and what doesn't work in the small Clinic. More Money - Less Taxes - Better Compliance...all in one, entertaining, educational seminar.

There really is no one else in the country – no practice manager, accountant, nor attorney – that provides the results that Jim does. No one.

Bring us to your next event for these entertaining and informative seminars:

Corporate Structure and Tax Law for Clinics

This is my most requested, most necessary, and funniest presentation.

I explain the basics that Docs need to know but don't know. Rules. Regulations. Strategies. By just being compliant with corporate law (and applying some business sense), most save over \$20,000/yr in taxes and stay out of jail! Docs return each year for this one.

Time: 1–1/2 to 3 hours

Classification: Compliance

Cost to Association: Plane fare, hotel, vendor booth

DC Clinics — The Good, The Bad and The Ugly

Over 400 photos of what I have seen over the last 16 years. You can hear a pin drop while Docs see pictures of cringeworthy clinics as well as Taj Mahals.

I reveal the tips, advice and secrets other Docs have used to make their clinics soar: marketing, protocols, staffing, location, image—everything from starting to running to selling a clinic.

Time: 2–4 hours

Classification: Practice Management

Cost to Association: Plane fare, hotel, vendor booth
